

READERS & CREATORS!

Story time has never been so fun! Join us for a monthly event that combines reading, fun, games, art, and diversity. Children and families can listen to stories and read along with guest readers. The books that are read are available FREE with activities to be picked up at the center, the week before and after the events. Kids will develop a deeper love of reading and a better understanding of concepts and story lines all while having a creative adventure.
